We would like to draw your attention towards the following mentioned three in one Rustonil, as it saves money, time and labour with excellent results, which is very advantageous, and make it a unique product to save your raw material as well as finished products. It enhances the life of any product made from Iron and Steel and gives you a saving of at least 30% i.e. maintenance.

RUSTONIL

1. Removes the rust
2. Convert the rust into iron
3. Simultaneously forms a protective layer and stops further rusting

The product is approved by virtually all Government approved laboratories in India. This is the only indigenous protective liquid compound available in India.

We are pleased to mention that we have the certificates from the following departments

1. ISO 9001:2008
2. Motilal Nehru National Institute Of Technology.
3. Harcourt Butler technological Institute.
4. NCR LOKOSET Kanpur.

Added Advantages:

- It increases the life of paint .For example if the life of paint is 5 years then no corrosion will occur before 5 years after the application of **RUSTONIL FZ105**.
- **RUSTONIL FZ105** will further reduce the cost of maintenance by one third, in spite of using other paints again and again each year. It is a labour saving product .It also saves your money and time.

We will be highly obliged, if you kindly introduce our product in your corporation and give us an opportunity to serve you.

Looking forward to a long and rewarding business contract.

Thanking you,
FOR TRIMURTI (INDIA)

Sagar Mishra.
